

Child Product Inventory Sheet

Use this form to track products you buy and use to care for your child – starting with the crib and including all other juvenile products such as strollers, high chairs, swings and toys. Register your children’s products — this is important because it is the *only way* you will be notified in the event of a recall. Product registration cards are now included with all durable infant products: Send in your postage paid card or register online. Check all products for recalls at www.cpsc.gov. If you give a product away or loan it to a friend or relative, make a note of who has it so you can contact them if it is recalled. Sign up for email notice of recalls at www.cpsc.gov and a monthly update on children’s product safety, including recalls, at www.KidsInDanger.org. Report any problems with your children’s products or the recall process to the US Consumer Product safety Commission (CPSC) at www.SaferProducts.gov.
