

Federal Lead Guidelines: CPSC

"No accessible part of a children's product may contain more than 100 parts per million (ppm) lead content."

"Paint or other surface coatings on children's products and furniture intended for consumer use may not contain lead in concentrations greater than 90 ppm."

To be sold, products must undergo testing in a CPSC-approved third-party laboratory and receive a Children's Product Certificate.

CONSUMER PRODUCT SAFETY ACT (Codified at 15 U.S.C. §§ 2051–2089)

Take Action
