

Directory of Manufacturer Online Product Registration Pages

Registering infant and toddler durable products is imperative for receiving timely recall information that can ultimately save a child's life. We researched makers of children's products to provide a "one stop" resource for consumers and created a list, which includes as many manufacturers as we could identify along with their websites to register their durable products online. These include products such as cribs, strollers, high chairs, carriers and more. The complete list can be found in this [brochure](#).

Parents should use this directory now to register both newly purchased products and items you are already using with your children. Try using the [Child Product Safety Checklist](#) available at www.KidsInDanger.org to make a list of products before you get to the computer. The product registration form and its contents will *not* be used for marketing or sold to third parties—it can only be used to notify you in case of a recall or other safety issue regarding the product. Registering your products online and providing your email address is the most effective way to ensure you are notified in the event of a recall.

The law requiring product registration, both via cards and online, went into effect in 2010. We were pleased that a growing number of manufacturers offer the product registration form on their sites, including the prohibition on marketing. We applaud their efforts to provide consumers with this important safety tool.

But some manufacturers, as can be seen on the list, either don't know about the requirement or aren't complying. We urge CPSC and other regulators, such as states' Attorneys General to monitor compliance. We urge all manufacturers to actively participate and do what they can to get all their products registered—it will make any future recalls much more effective.

We will be working to improve this list. If we are missing sites or manufacturers, please send the information to email@kidsindanger.org or cfa@consumerfed.org.
