

Prevent Tip-Over Deaths.

Secure Your Furniture and TVs.

Safety straps and brackets attach to the back of televisions and furniture to prevent tip-over accidents.

- A child dies every two weeks after being crushed by an unsecured television, piece of furniture or appliance.
- Every year, an estimated 23,000 children nine years old and younger are treated in emergency rooms because of unsecured televisions, furniture and appliances.
- In Illinois alone, at least five children were killed by unsecured furniture or televisions in 2011 and 2012.

SECURE YOUR FURNITURE AND TVS WITH SAFETY STRAPS AND BRACKETS.
